

ARMY MEDICINE HEALTH PROFESSIONS SCHOLARSHIP PROGRAM

Your Success Begins with our Scholarship

When you're pursuing an advanced health care degree, the last thing on your mind should be how you're going to pay for it. The U.S. Army can help with one of the most comprehensive scholarships available in the health care field — The F. Edward Hébert Armed Forces Health Professions Scholarship Program. Qualifying students receive full tuition for any accredited medical, dental, veterinary, psychology or optometry program, plus a generous monthly stipend of \$2,200.

WHAT'S COVERED?

The U.S. Army health care team will pay 100 percent of your tuition for a graduate-level health care degree for any accredited medical, dental, veterinary, psychology or optometry program in the United States or Puerto Rico.

FULL-TUITION SCHOLARSHIP, PLUS A \$20,000 SIGN ON-BONUS

The U.S. Army Medical Department can help take away the worry of how you'll pay for school. The F. Edward Hébert Armed Forces Health Professions Scholarship Program is available to qualifying students who wish to earn professional degrees from accredited medical, dental, optometry, veterinary, psychiatric nurse practitioner, clinical or counseling psychology programs. We will pay 100 percent of your tuition, plus we will also pay for required books, equipment and most academic fees. Qualifying medical and dental students are also eligible to receive a \$20,000 sign-on bonus.

FINANCIAL INCENTIVES

As you attend school, you'll receive a monthly stipend of more than \$2,000. During breaks, you'll receive officer's pay while you train as part of our health care team. After graduation, you'll enter active duty in your specialty and advance in rank to captain. With every promotion, your salary will increase. Your time-in-service and cost-of-living adjustments also lead to pay increases. Additionally, you'll receive a monthly non-taxable allowance for food and housing.

WHO'S ELIGIBLE?

The HPSP is available for students pursuing advanced degrees in medicine, dentistry, veterinary science, psychiatric nursing, optometry or psychology. To qualify for the Health Professions Program, you must:

- Be a U.S. citizen with a baccalaureate degree from an accredited school
- Be enrolled in (or have a letter or acceptance from) an accredited graduate program in the U.S. or Puerto Rico (varies by specialty)
- Maintain full-time student status during the length of the program
- Qualify as a commissioned officer in the United States Army Reserve

YOUR OBLIGATION

Your active duty service obligation to the U.S. Army is one year of service for every year you receive the scholarship. Your minimum obligation depends on your health care field. For example, the minimum obligation for medical students is two years. Dental, psychology, optometry and veterinary students are obligated to serve no fewer than three years. There is an additional obligation for residency and fellowship training.

Meet Captain James Blair, M.D.

Scan this code to watch his video and see how rewarding it can be to practice medicine on the U.S. Army health care team.
