This sample plan demonstrates the recommended sequencing and timing of the required courses for the major as well as the recommended pre-health courses. Preparation for health careers can vary, depending on the specific field of interest. Students are encouraged to meet with a pre-health advisor to discuss specific requirements. In many cases, a student's academic background will require variations in the timing of the coursework listed in the plan. All students are expected to work with their academic advisor to find their best pathway through the degree requirements of their chosen program. Students should consult their academic advisor for correct MATH and CHEM course placement before enrolling
