This sample plan demonstrates the recommended sequencing and timing of the required courses for the major as well as the recommended pre-medical courses. In many cases, a student's academic background will require variations in the timing of the coursework listed in the plan. All students are expected to work with their academic advisor to find their best pathway through the degree requirements of their chosen program. Students should consult their academic advisor for correct MATH and CHEM course placement before enrolling.

² Students should consult their MyDegreePath or major advisor for list of approved courses.
